Persatuan Perpustakaan Malaysia in conjunction with UNESCO and Perpustakaan Negara Malaysia have organised a half day Seminar on the use of new information technology in libraries. The purpose of the seminar is to keep librarians, information personnel and other interested parties in touch with the various developments that are taking place in information technology and how this technology is being utilised in libraries. Information of this nature will not only help in better understanding the new information technology but also create an awareness of how it can be used effectively.

Dr. Ching-Chih Chen, a sought-after international consultant on new technology application in library and information centres, is Professor and Associate Dean of the Graduate School of Library and Information Science, Simmons College, Boston (USA). An author and editor of over 15 books in information technology and management, she is also Editor-in-Chief of Microcomputers for Information technology and management. She has received many awards and honors. Including the Outstanding Information Science Teacher Award of the American Society for Information Science, and is a fellow of AAAS. She is also a principal of Chen & Chen Consultants, Inc.

Dr. Chen is scheduled to make the following presentations:-

Friday, 2 June 1989

8.30 am - Utilisation of new information technology in libraries.

11.00 am - Microcomputer and optical disc technology application in libraries.

Seminar fees including morning tea and lunch is \$30.00 for PPM members and \$50.00 for others. For your information the Seminar will be followed by a workshop on data base management techniques by Dr. Chen.
